

# Car Free Day!

JUNE 1ST, 2022

LEARN ALL ABOUT IT  
ON [L2020.ORG](https://l2020.org)

## 1 WHAT'S A CAR FREE DAY?

A day for everyone in the community to try alternative transportation to get to work or school, and have the chance to win prizes!

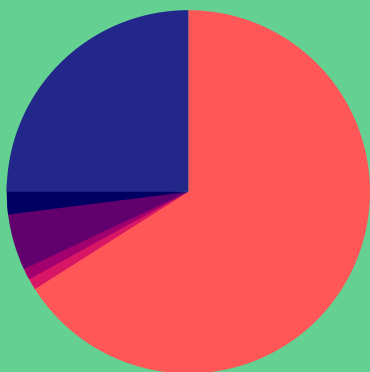

## 2 WHY A CAR FREE DAY?

Vehicles contribute to climate change in multiple ways. CO2 emissions from transportation are one of the leading causes of climate change. In addition to that, many of the different materials (chemicals, fluids, plastics, etc.) used in cars end up in the ocean killing marine life. Leaving your car at home is one of the best ways to protect our unique marine ecosystem and fight climate change.

## 3 Prizes

A variety of local businesses and community members have donated prizes like goodie baskets, movie tickets, bike tune-ups, gift cards, and more! After using alternative transport, to enter the prize drawing, go to [l2020.org/carfreeday/](https://l2020.org/carfreeday/) and click the link in the "How to Participate" section.

## 5 JEFFERSON COUNTY COMMUNITY EMISSIONS

Transportation	66 %
Industrial	25 %
Residential	5 %
Commercial	2 %
